A wide range of materials to meet your needs... Transparent tinted vinyl, cotton duck and vinyl laminate

PRODUCT INFORMATION AND SELECTION GUIDE

14 mil. Flame Retardant Tinted Transparent Vinyl

- Provides protection from harmful UV rays and sparks for the casual viewer or passerby
- Blocks most of the UV Radiation, reduces the visible flash, and allows light into the work area
- Flame resistant and meets CFM requirements

Warning: Transparent vinyl welding curtains provide protection for the casual viewer or passerby. Not intended as a substitute for normal eye protection for close or long-term viewing. The user must wear protective eyewear suitable for the application

333 - Green

332 - Gray

322 - Shade 8

334 - Yellow

338 - Orange

3T5 - Blue

16 mil. Flame Retardant Clear Vinyl

- Ideal as a barrier for chipping and grinding applications
- CFM approved

Not for use in welding applications

339 - Clear

12 oz. Flame Retardant Olive Drab Cotton Duck

- Opaque to block all flash and harmful rays
- Flame, water and mildew resistant
- General-purpose, economical protection against light sparks and spatter
- Specially treated to meet flame retardant requirements

301 - Olive Drab

13 oz. Flame Retardant Vinyl Laminated Polyester

- Opaque to block all flash and harmful rays
- Vinyl laminated polyester scrim is strong and lightweight, flame, water, and mildew resistant. Good resistance against punctures, tears, and abrasion
- Other colors available: White, Red, Black, or Orange
- CFM approved

335 - Blue

33Y - Yellow

33X - Green

Steiner curtains are widely used to enclose welding workstations, robotic cells and to partition off maintenance areas, where work hazards exist

Our team of sales and customer service professionals can help you select the right curtain for your requirement. All Steiner's stock curtains can be used as replacement Curtains for Protect-O-Screens.

STOCK CURTAINS

- Actual size may vary up to 3" in height and width dimensions to allow for seams and hems
- 3/8" I.D. brass grommets are placed on all 4-sides at approximate 12" centers

ORDERING CUSTOM-MADE CURTAINS

- Specify the size if exact finished size is required, otherwise, finished size will be approximately 3" shorter in each dimension
- Add 10% to the width of hanging curtains to allow for proper drape
- Allow 3" to 12" for ventilation at the bottom of curtains in welding applications
- If not otherwise specified, grommets will be placed on all four sides at approximate 12" centers. Fractions of a foot are billed to the next foot

Accessories

34300 Jack chain

1/4 lb./ft. weighted chain sewn into bottom curtain hem to stabilize curtain in drafty areas

33601 Hook & Loop

Velcro® fasteners. Sewn on curtain perimeter for joining multiple curtains

44001 1" S-Hooks

1" S hook for hanging curtains from (up to 1" diameter) cable or pipe

44002 2" Hooks

2" hook for hanging curtains from (up to 2" diameter) cable or pipe

Welding Curtain Rolls

- Ideal for instant curtains needed for maintenance projects and widely used in robotic welding areas where large curtains are needed to enclose the perimeter of a welding area. Simply roll out the length of curtain needed and cut it off the roll with scissors
- Convenient 60" High x 25 yard rolls, grommets every 12" along one side for hanging with S-Hooks (sold separately)
- 14 mil tinted vinyl curtain material allows visible light through, yet filters most U.V. rays. *Not a replacement for eye protection*

| Part No. | Color |
|----------|--------------------|
